Experience

Signalor <i>Founder & CTO</i>	San Diego, CA Sep 2025 – Present
- Co-founded and built signalor.app, a public-sentiment intelligence platform for brands and investment firms; bootstrapped to \$XXk MRR. - Designed and built the production system end to end: Persistent headless scrapers and crawling web agents, SvelteKit, Bun/Express/Prisma, and TypeScript workers on a Kafka pipeline (Avro, Schema Registry) for dedup, brand tagging, and LLM inference over PostgreSQL and Redis, with multi-tenant RBAC and Stripe billing. - Built a sentiment-to-revenue forecasting subsystem with LLM intent classification, weighted metrics, Bayesian shrinkage, and earnings-date leakage guards; sentiment led Apple's YoY revenue growth by one quarter on held-out data ($r = 0.43$).	
IBM <i>Software & DevOps Intern</i>	San Jose, CA Jun 2026 – Sep 2026
- Work across the AIOps/DevOps team on watsonx Assistant for Z; shipped crucial FINN features in Q2/Q3 2026 releases. - Output measured at over 6x a standard SWE intern's on internal scoring.	
Climind <i>Software & DevOps Intern</i>	Remote (San Francisco, CA) May 2024 – Aug 2025
- Built and deployed persistent web crawlers collecting ESG reporting and bond data to feed the company's LLM training pipeline. - Maintain and built containerized services with Docker and set up CI/CD for internal deployment.	
Radians <i>Lead Developer</i>	London, UK Aug 2023 – Apr 2024
Built and shipped the company's e-commerce site (React, Node.js, MongoDB) with email and VoIP support flows.	

Projects

Autonomous Swarm Intelligence	devpost.com/software/outcast-virus
End-to-end autonomy OS for drone and ground-vehicle swarms: RL-trained multi-agent navigation with camera-based vSLAM. Built for hackathon, winning \$4k, then a \$100k offer from Bow Capital to continue.	
dont-hallucinate	pypi.org/project/dont-hallucinate
Shell-level guardrail for coding agents (Python, Bash, PowerShell): intercepts failed commands, classifies the failure, and hands the agent both the fix and the criticism it earned. 500+ downloads (pypi, npmjs)	
Political Speech Classifier	alexgaoth.com/projects
Encoder-only transformer implemented from raw matrix operations, no ML framework: attention, embeddings, and the training loop by hand. 98.9% agreement with allsides.com classifying US political speech by party.	
3D Julia Set Simulator	intro.alexgaoth.com/JuliaSetFractal
Pseudo-3D fractal renderer hand-built in Unity at 15; My love letter to Pure Math.
